**CALL FOR PAPERS**  
**INTERNATIONAL WORKSHOP ON**  
**“SUSTAINABLE DEVELOPMENT FOR AGRICULTURAL SECTOR UNDER POST PANDEMIC**  
**CONDITIONS IN MEDITERRANEAN BASIN”**

**WORKSHOP OBJECTIVES**

The workshop will provide an opportunity to discuss the post pandemic opportunities in agricultural sector in the Mediterranean basin. As sustainability has become a focus of many industries during the pandemic and it is promoted by supra-governmental organisations as well as governments of developed countries. With the COP26 taking place this year, this workshop will provide a platform to discuss both theoretical developments and practical applications of a wider range of concepts such as circular economy, new green deal etc.

**WORKSHOP TOPICS**

Although a wider range of topics relevant to Sustainable Development Goals and Sustainable agriculture are welcome, the workshop would mainly focus on:

- Sustainable development goals for 2030 and their economic impact on the future agriculture in the Mediterranean basin.
- European Union Green Deal’s Farm to Fork Strategy and the potential consequences for the farmers around the Mediterranean countries.
- How to achieve circular economy in post pandemic agricultural production
- Green Supply Chain Approaches
- Exploring alternative climate friendly production approaches in agriculture such as climate-smart agriculture etc.
- Ecosystem based agricultural systems
- Conservation agriculture
- Renewable Energy systems for agriculture

**PUBLISHING OPPORTUNITIES**

All abstracts and papers will be published in the edited workshop proceedings and made available post-symposium online and in print. Akdeniz University, INFER and ATED will offer additional publication opportunities.
